Rockpool Alaw sea kayak

Sparkling red stars on black glitter

It's had some use with the usual bumps and scratches but there's lots more life left in it! All hatch covers are present and the skeg is fully functional.

The Alaw is a great mid-volume sea kayak for touring and playing and ideal for paddlers with long legs due to its distinctive deck shape and raised leg position.

I'm looking for **£700 ono.** Please contact Andy Fox – 07765 256368 (based in Leeds)

This is what Rockpool say about the Alaw - <http://www.rockpoolkayaks.com/alaw.php>

The ALAW is a high performance sea kayak with an easy going nature, designed for medium to larger size paddlers.... high forward speed ... good directional stability ...good manoeuvrability in confined spaces and tight turns. The ALAW is designed to have neutral directional stability in most wind conditions and requires minimal use of the skeg. The bow has good shape and volume to maintain a dry ride through choppy conditions ...when paddling out from the beach through surf...The ALAW surfs well, catching waves easily ...but stable handling when tracking across the wave...The overall visual appeal of the ALAW is unique and stylish. It is a statement of power, gracefulness and individuality. This sea kayak
